American Backflow Prevention Association
Southern California Chapter
Nomination Announcement

E. Kent Springer Award

For nearly 20 years, Professor E. Kent Springer headed University of Southern California's Foundation for Cross-Connection Control and Hydraulic Research. Professor Springer was responsible for establishing the Foundation's Field Evaluation Program for the evaluation of backflow prevention assemblies — the only fulltime program of its kind in the world — and he developed the Foundation's five-day course for the training of backflow prevention assembly testers. He became interested in the work of the Foundation in the mid 1950's and co-authored the document USCEC 48-101, published in 1959, which became the basis for the 1st Edition of the Manual of Cross-Connection Control. Professor Springer served as director of the Foundation for Cross-Connection Control and Hydraulic Research from 1965 until his retirement in 1984.

The E. Kent Springer Award will be presented each year at the annual Southern California Chapter Conference to an individual for distinguished service in the backflow prevention and cross-connection control field.

Nomination applications can be printed online at:
socialabpa.org

Nominations will be taken until August 31,2006

Our Chapter Newsletter Supporters - THANK YOU!
